During the period from 1987-88 to 1994-95, IREDA received projects from entrepreneurs/organisations belonging to Bihar. Four of these were found technically and financially viable and sanctioned.

(c) IREDA does not show any discrimination between States in sanctioning projects. Its policies in this regard are uniformally applicable to entrepreneurs belonging to all the States/Union territories.

IREDA has taken specific steps to create greater awareness of New and Renewable Sources of Energy technologies so that the projects can be generated from Bihar. The steps taken include organisation of a Business Meet at Patna, in collaboration with the National Productivity Council, liaising with the Bihar Industrial and Technical Counsultancy Organisation (BITCO), whose representatives are invited by IREDA to various meets and seminars etc. and, two officers of which were sponsored by IREDA, for a short-term training course on SPV; participation of IREDA officials in seminars/workshops organised in Bihar for propogating its policies and activities; and establishment of networking arrangement with the following four organisations in Bihar:—

(a) M/S Hitech Engineering Works; Ranchi.

(b) M/s INKAS India, Jamshedpur;

(c) Dept. of Energy, Patna; and

(d) M/s BSHEP Corporation, Patna, etc.

Bihar has also been selected as one of the 7 States for free distribution of imported Portable Micro-Hydel sets for decentralised generation of power.

It would, thus, be seen that no injustice has been done by IREDA to Bihar in respect of renewable energy projects.
